

AMENDMENTS TO THE SPECIFICATION

Please amend the specification as follows, where underline shows additions and strikethrough shows deletions:

On Page 1, lines 4-11 (paragraph 2), please amend the paragraph as follows:

The present application is also co-pending with U.S. Patent Application Serial No. 09/606,660, filed concurrently herewith on June 28, 2000, entitled "Language Input Architecture For Converting One Text Form to Another Text Form With Tolerance To Spelling, Typographical, And Conversion Errors" and U.S. Patent Application Serial No. 09/606,807, filed concurrently herewith on June 28, 2000, entitled "Language Input Architecture For Converting One Text Form to Another Text Form With Modeless Entry". Both of these co-pending applications are incorporated herein by reference.

On Page 12, lines 13-23, please amend the paragraph as follows:

The language input architecture 131 of word processing program 130 has a user interface (UI) 132, a search engine 134, a language model 136, and a typing model 137. The architecture 131 is language independent. The UI 132 and search engine 134 are generic and can be used for any language. The architecture 131 is

1 adapted to a particular language by changing the language model
2 136 and the typing model 137. A more detailed discussion of the
3 architecture is found in co-pending applications Serial No.
4 09/606,660, entitled "Language Input Architecture For
5 Converting One Text Form to Another Text Form With Tolerance To
6 Spelling, Typographical, And Conversion Errors" and Serial No.
7 09/606,807, entitled "Language Input Architecture For
8 Converting One Text Form to Another Text Form With Modeless
9 Entry", which are incorporated herein by reference.
